

THE BLAIRMORE ENTERPRISE

VOL. XV, No. 44.

BLAIRMORE, ALBERTA, THURSDAY, OCTOBER 30, 1924.

\$2.00 PER ANNUM

We are pleased to be able to announce that Charles Montalbetti, who underwent a critical operation in the local hospital almost two months ago, has sufficiently recovered to be able to come out of the hospital today and return to his home at Frank.

An eastern visitor, seeing a sign over a Chinese laundry, was not sure that he could read it, but felt certain he could play it on the flute.

The regular monthly meeting of the Board of School Trustees will be held tomorrow evening.

About one thousand men will leave the coal pits in the Edmonton district on Saturday.

An attempt by masked men to get away with a registered mail sack at Moose Jaw failed through the courage of the mail clerk. The sack contained many thousands of dollars.

TOWN COUNCIL MEETING

The regular fortnightly meeting of the Blairmore Town Council was held on Monday night, Mayor McLeod, Councillors J. A. McDonald, J. E. Gillis, W. Patterson, Evan Morgan, A. E. Ferguson and J. Montalbetti, and Secretary Wright being present.

The minutes of previous regular meeting were approved as read and the following accounts were passed for payment, subject to approval by committees: Alberta Government: Telephones \$12.50; B. Serandi \$48.00, R. Crayford, \$28.00, J. Howe \$4.00, D. Lewis \$6.28, Blairmore Board of Trade \$39.00, Mar. Poy \$12.50, Attorney-General's Department \$610.00, Blairmore Enterprise \$32.00, W. Lorne \$208.75, F. Wright \$160.00, Terrill Floral Co., \$10.00, J. Spence \$150.00, Northern Electric Co. \$40.33, Canadian General Electric Co. \$96.37, Blairmore Furniture Store \$15.00.

McDonald-Montalbetti—That resignation of J. McDougall as fire chief be accepted. Carried.

McDonald-Gillis—That the secretary be instructed to insert advertisement in local paper calling for applications for position of fire chief. Carried.

Ferguson-McDonald—That an extension fire ladder and a "V" connection be purchased. Carried.

Petition from residents of east Hillside, re roadway, was referred back for investigation.

Communication from the Secretary of the Union of Alberta Municipalities was, after some discussion, ordered placed on file.

No further business, the meeting adjourned at 9.45.

Now the English interpretation of the slang word "jag" is umbrella. In future the police will have to charge a man with being under an umbrella instead of a glorious jag.

ANNUAL MEETING OF CROWS' NEST PASS HOCKEY LEAGUE

The annual meeting of the Crows' Nest Pass Hockey League was held at the Greenhill parlor on Monday night last, present President R. W. Morgan, of Pincher Creek; Vice-President Dr. J. A. Key, of Bellevue; Secretary A. J. Kelly, of Blairmore; R. V. Gibbons and W. Henderson, of Lethbridge; C. W. Purvis, of Coleman; W. H. Chappell and W. W. Scott, Blairmore.

The minutes of last annual meeting were read and approved, as was also the report of the treasurer.

Moved by W. H. Chappell, seconded by C. W. Purvis, that the Crows' Nest Pass Hockey League be composed of the four clubs as last year, namely, Coleman, Bellevue, Blairmore and Lethbridge. Carried.

A proposed schedule for the season was submitted by Mr. Chappell and upon motion it was decided that copies be given the different clubs for consideration, to be returned not later than November 15th.

Proposed by Mr. Gibbons, seconded by Mr. Purvis, that amateur referees be appointed, the same as last year, and that each club send in two names of referees who are able to handle the game. Also that overtime rules be same as last year. Carried.

Protest rule to be same as last year. Registration of players be not later than December 1st, and that no transfers be allowed after that date.

Chappell-Purvis—That fee be \$25, fifteen to go to the A.A.H.A., and ten to the local league, and that assessment of last year (\$10.00) be put into effect. Carried.

Club colors to be same as last year.

Guarantees to be same as last year.

A vote of thanks was accorded the president and secretary for their efficient services during the past year. Election of officers resulted as follows:

President—Rev. (Capt.) Bob Pearson, Lethbridge.

First Vice-President—Ed. McDonald, Blairmore.

Second Vice-President—E. C. Costick, Bellevue.

Secretary-Treasurer—L. W. Turcotte, Lethbridge.

Mr. G. E. Cruickshanks, of Hillcrest, representing the Alberta Amateur Hockey Association, was present at the meeting.

INTERMEDIATE HOCKEY CLUB REORGANIZES

At a well-attended meeting of intermediate hockey enthusiasts held at the Greenhill parlor last night the Blairmore Intermediate Hockey Club was reorganized for the coming season.

The chair was occupied by the president, Mr. H. H. Griesbach, while Mr. W. Thomas acted as secretary.

The financial statement for the past year was read and approved and election of officers took place, with the following results:

Hon. Pres.—W. J. Bartlett.

Hon. Vice-President—Rev. W. T. Young, Mayor McLeod, G. A. Vissac, Raoul Green, L. L. Morgan, Harry Burns and L. Dutil.

President and Manager—H. H. Griesbach (re-elected).

Secretary-Treasurer—W. Thomas.

Funds were necessary, with which to purchase new uniforms and other equipment, and it was decided to stage a tag-day in the near future for that purpose. The date suggested for the tag-day is November the 29th, and those available on that date are asked to meet the president on the night of the 28th for supplies of tags.

The intermediates have already lined up about fifteen players and look forward to a successful season.

Mr. K. G. Craig, of Calgary, has decided to open up a law office in Blairmore, in the office of the late Mr. L. H. Putnam. He will shortly move his family here.

CAPT. W. A. BEEBE A SCHOOL TRUSTEE

Capt. W. A. Beebe was on Monday last nominated to fill the office of Kie, member of the British Columbia school trustee left vacant through the resignation of Mr. Allan Hamilton and has been declared elected by acclamation.

Capt. Beebe was one of Blairmore's first overcoats and school board members, holding the latter position until about five years ago.

The board as now constituted comprises Messrs. L. Dutil, W. H. Chappell, D. A. Howe, Mrs. F. M. Christophers and Capt. W. A. Beebe.

H. H. Hull's dream of a "one and a half million dollar addition" to the Lethbridge Brewery will materialize shortly in a structure to cost about fifty thousand.

Lethbridge has threatened to burn coal if the rate for gas is increased.

PETER VEREGIN KILLED

Peter Veregin, head of the Western Canada Donkshober colonies; J. L. McLean, member of the British Columbia legislature for Grand Forks, and three other persons so far unidentified were killed at an early hour yesterday morning on board a Canadian Pacific passenger train on the Kettle Valley line, when a gas tank in the first-class passenger coach exploded. Ten persons were injured.

Peter Veregin was born in Trans-Caucasia in 1859 and was seventy-four years old.

With the death of Peter Veregin, who was looked upon as leader by a large proportion of the Christian Community of Universal Brotherhood, the breakup of one of the greatest Communistic organizations in the world is forecast.

If a husband has the last word, isn't it something like this: "All right, buy the darned thing!"

RED CROSS DAY—OCTOBER 31ST

Once a year the mind of the public is focused on the work done by the Alberta Division of the Red Cross Society with a view of maintaining practical sympathy with and confidence in the aims and objects of Red Cross. The slogan on an attractive little illustrated pamphlet is "Health For All and All For Health." The question is asked, Why does the Red Cross go on at all? Six reasons are given as follows:

1. The Junior Red Cross Service with hospital care for the sick and crippled children of Alberta. That alone is really a complete raison d'être in itself, for whoever visits that remarkably happy home in Calgary, where there are gathered together the sick, the lame and the halt, will agree that such a service demands our most generous and sympathetic support.

2. Home Nursing Classes which the Red Cross is forming in every prairie town where there can be found a band of women eager to learn the best way to care for their sick ones.

3. Rural hospitals in outmost settlements far from civilized centres, where the settler and his wife and family can have hospital service which is of greatest value in maternity and child welfare.

4. Immigration service, which helps to welcome the settler from other lands and by advice and practical sympathy is doing a great work of kindness to the strangers within our gates.

5. Health education of the people, which by means of the latest pamphlets on health distributed free to all on request, by lantern lectures and radio addresses, by exhibits and demonstrations at fairs, etc., stimulates public interest in Good Health.

6. Disaster and relief service, which stands by in times of distress, or accident, in poverty and trouble, to give aid to the needy and poor and helpless.

There can be, no doubt, no hesitation in the mind of the public as to the practical value of Red Cross in Alberta.

BRITISH BOYS ARRIVE

Fifty British young men, the first party to take advantage of the plan to train British youths at the Vermilion School of Agriculture in Alberta for farm life, arrived at Vermilion on Monday to commence their special courses. It is anticipated that another party of fifty will come out before Christmas. The young men will be given special training which will fit them for life on Alberta farms, under a scheme whereby the British Overseas Settlement Board and the Alberta Department of Agriculture bear the cost between them. The young men are required to have sufficient funds only to pay for their keep during the winter's course. The instructions will be under the direction of W. J. Elliott, former principal of the Clarendon School of Agriculture.

The annual convention of the teachers of Macleod Inspectorate, public schools, will be held in Blairmore on Friday and Saturday of next week. It is estimated that upwards of one hundred teachers will be present. In the evening a banquet will be served at the Cosmopolitan hotel, and at night a grand dance will take place at the opera house.

Chester M. Elliott, manager of the Alberta Wheat Pool since its inception last year, died suddenly at Vancouver last week, of heart failure. He was thirty-four years of age.

ONTARIO WANTS

ALBERTA COAL

Ontario is evidently waiting until the last minute before ordering its winter supply of coal, in the hope that it will be possible to secure Alberta coal instead of the U.S. coal. Telegrams received in the office of the Trade Commissioner the past week from the Fuel Board at Ottawa indicate that the importation of American anthracite has been much below normal this season so far in Ontario, and that people in Ontario are anxious to know of the possibility of securing Alberta coal. Trade Commissioner Stutchbury has replied that it would be possible for Alberta to supply coal this winter to Ontario if the freight rates can be adjusted.

WHY WE ADVERTISE LIQUOR

There are persons in this community, and by the way, they are the people who give us little or no patronage, who are bold enough and inconsistent enough to criticize this paper for accepting liquor advertising. We are going to give such people a very few reasons for accepting such advertising.

In the first place we have lived long enough and have, while living kept our eyes wide open sufficiently to find out that all people do not honestly see alike, and we have known good, Godly men who took an occasional glass of spirituous liquor. We do not believe it advisable in this age to drink hard liquor, neither do we believe we are so all fired wise that we can dictate to the universe. Personally we prefer to abstain for many reasons, which to us are sufficient. But the man who sees differently is no doubt a rational human being. Let him hold his own beliefs and we will hold ours.

As a broad principle we believe in temperance not in prohibition, except for the sake of a weaker brother.

Another reason is that we need bread to keep our soul and body intact and experience has shown us that the same people who yell the loudest at us for accepting liquor advertising are those who howl loud and long when we charge them the regular rates for a 75 cent advertisement in our columns. In fact they, for the most part, belong to the deadhead class of society.

And then you must remember that many old tea grannies wreck their constitutions with everlasting black tea, while others commit absolute sin against themselves and their offspring by overloading their stomachs until one almost hears their grunts of overfed satisfaction.

The Province carries no brief for the liquor business, but we do believe that their advertisements are not to be classed among those which should be refused by the management of The Province. If any brother or sister wishes to dictate the policy of this sheet for their \$2.00 subscription, let them despair right now. The subscriber does not pay the price of what he gets anyway. The advertiser makes him a gift of his subscription, only asking him to partially contribute to the cost of producing the paper he reads. So you see, the subscriber who attempts to dictate to a newspaper is not on exceeding sound ground.—Innisfail Province.

When two young people get their heads together they are dancing.

FIVE THOUSAND DOLLARS CASH

How would you like to wake up some morning and find you were the winner of \$5000? Some person is going to get it. Why not you? The Family Herald and Weekly Star of Montreal are offering Ten Thousand Dollars in cash prizes to those who make the best estimates of the total number of votes to be polled at the next Federal Election. There were 5,119,205 polled out of a total of 6,435,510 in 1921. The next election is not far away. How many will vote? It costs nothing to make an estimate if you are a subscriber to that great weekly for 1925. The Family Herald has a wonderful program this season. It is admitted to be the best family and farm paper on this Continent. A very handsome art calendar is also given to each subscriber. It is the Biggest Two Dollars worth ever offered in Canada. Write for a sample copy or leave your subscription at this office. You will never regret it.

Holiday Greeting Cards

Among the pleasant annual customs prevailing in modern times is the practice and custom of sending out personal greeting cards. These cards many times serve to link the past with the present and rekindle the old spark of affection in those with whom we have in former days held close and friendly communion.

Then, There Is the Other Side—

From the purely personal greeting, the amenities of modern business have extended the custom to the sending of greetings by business concerns to patrons and an exchange between the business houses themselves.

Business men who have for months been enjoying the patronage of residents of the district find it quite the thing to thank their friends for their patronage and wish them the greeting of the season.

Next Comes Our Side—

We have stocked the greatest variety of popular priced Christmas and Personal Greeting Cards ever carried by any country office in Alberta. These cards are all this year's stock of latest designs and they are marked down so that the wage earners can afford to buy nicely printed cards at a fair price. These cards in many instances take the place of presents and are economical to use. Call and look over our samples or phone in and we will call with our samples.

The Blaimore Enterprise

WHEN ASIATICS

STUDY ENGLISH

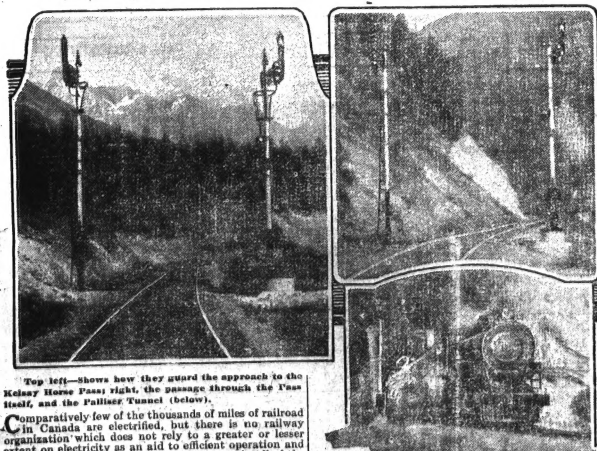

Schools in Mesopotamia are making valiant struggles to acquire knowledge of the English language. A real Oriental flavor is to be found in the following aphorism from a recent schoolboy's essay: "The schoolmasters are the gleaming diamonds, in the darkness of stupidity and dullness, but the lawyers are the moon in the sunning of the learning of the day. Come with me to a country which has only lawyers and no teachers; we shall see only tongues playing in the mouths of lawyers, with no use but riot." Another lad when asked to write a verse of English poetry, produced the following:

God shafe our greatus King,
Long live or no baulking;
God shafe the King!
Send him victorious,
Happy and gawd to us,
Long to rain over us,
God shafe the King!

The annual meeting of The Tourist Association of Southeastern British Columbia and Southern Alberta, was held at Fernie on Monday, attended by Messrs. L. L. Morgan and W. Bird representing Blaimore, and Alex. Morrison, representing Coleman. At the meeting, which was well attended, the resignation of Mr. J. Fred Spalding, as commissioner, was accepted, and Mr. Richardson, of the Medicine Hat Chamber of Commerce, was elected to succeed him. Mr. Richardson is considered a real live wire and worthy successor to Mr. Spalding. It was also decided to change the name of the Crows' Nest Pass "All-Red" Route to The Transcontinental (Western) All-Red Highway, taking in the territory from Cranbrook in the west to Regina on the east.

The families of Robert Gray and George Meffan, together with Mr. Gray's mother, are due to arrive from Scotland next week.

Watchmen Who Never Sleep

Top left—Shows how they guard the approach to the Kestry House Pass right, the passage through the Pass itself, and the Palliser Tunnel (below).

Comparatively few of the thousands of miles of railroad in Canada are electrified, but there is no railway organization which does not rely to a greater or lesser extent on electricity as an aid to efficient operation and service. Electricity plays an important part in all of the great Railroad Shops through the country. Some trains and cars are operated by power directly transmitted or stored in batteries. Bridges are operated, and a thousand and one electrical devices are in constant use which beside being labor saving do away with the human element which might make for inefficiency. Numbered and distributed along the line of the Canadian Pacific, and notices particularly in the Rocky Mountain passes where they are more urgently required.

To the average layman an automatic signal is just a signal, and the general public is only interested in it because it gives added protection, or rather eliminates possible danger from the portion of track which it governs. To the railroad official it is more. It acts as a watchman against broken rails, open switches, a fouled track or any

other obstruction. "Through a circuit in the rail this is accomplished, and if the circuit be broken, for the reason that another train is occupying the block, or that there is an open switch, a broken rail, washout or other obstruction, then the train approaching the signal may not pass. And while it awaits a through signal, trains following in the rear may not approach for the reason that they are also stopped by an automatic signal which will not release them until the preceding train has passed from that section of the track which they desire to enter. A perfect system. No electrical circuit—no through signal—no train may pass.

The value of this system in the Rockies can hardly be over-estimated. Not only is labor saved, but the company is able to ensure absolute protection.

BACK TO SANITY

There is a goodly number of citizens these days who seem to be under the impression that time is running away from them and must be caught at all costs. Hence we observe ourselves hustling from store to car and car to home and home to heaven knows where so long as we hurry to get there. Yet there are people who persist in denying latter day customs and keeping their own steady gait; and these people get there just the same, and on time, too.

Why all this haste, this frantic rush, this straining at the leash to get somewhere quicker than we did last time? Take a breath and let us reason together.

Business, of course, is not what it used to be. We are in the midst of a world of inventions—we call them time savers. The telephone enables us to do a considerable amount of work at our desks; through the aid of the telegraph we send long messages overnight to great distances. Typewriters, washing machines, vacuum cleaners, automobiles, self-serve lunch counters and many other mechanical devices too numerous to mention all cry out in one voice, "We are time savers."

Here, then, we have available an army of time savers for everybody. By the use of all these time savers we should have a number of hours free for leisure. We should have, but we haven't—there's the rub. We are all honest, of course, in claiming that certain devices do save time, but what we are curious about is, what happens to the time that has been saved?

Still following up the process of elimination, as inventions have followed up each other in rapid succession, it is reasonable to suppose that every moment of time actually used today should account for at least ten minutes of time of a decade back. Again we are constrained to ask, has it?

It hasn't! Not on the face of it. We stand at the corner of a busy intersection and are lost in amazement. Here we see a feverish activity that can only mean one thing. Time, instead of being saved, apparently, to judge by the tense expression on all faces, is at a premium. There is no question about it, the system has all gone wrong. Instead of a reasonable amount of leisure, we cannot permit ourselves to walk—we ride, ride, and invariably at just over the speed limit.

Yesteryear we were content to perform certain duties during a given space of time, and knowing our limitation were content to confine ourselves to a reasonable number. Today

there is a tendency on everybody's part to take advantage of all time-saving inventions and crowd into one day what we would have done in a week's time previously. Naturally, we are hurried, and all to what purpose? Isn't it time we took account of our activities? Isn't it about time we slackened the pace a little? Great men a generation back performed a wondrous life-work at a dignified pace within the same period of time that is now life's allotted span. It is very questionable where this wild rush is leading to.

At least, let us reflect a little. Perhaps some judicious planning ahead of time, or a reduction in the number of unorganized organized societies might help. There is a solution; let's get our heads together and work one out for our own peace of mind.—McClary's Wireless.

WHAT THE GOVERNOR GENERAL COSTS

Premier King has told Vancouver audiences that, for the sake of economy, the various self-governing units of the Empire have decided to take care of their own foreign treaties when such treaties concern only domestic matters.

By analogy it would seem to be reasonable to extend that principle to government.

Here in Canada we have a Governor General, appointed by Great Britain, who costs us per annum, roughly, as follows:

Interest on Rideau Hall	\$250,000
Salary	48,866
Private Cars	50,000
Travelling Allowance	50,000
Military Secretary	6,000
Aides	7,300
Staff	21,557
Additional Secretarial Salary	3,600
Secretary's Allowance	600
Deputy Governor General	4,575
Printing	3,000
Taxis	2,933
Newspaper Subscriptions	1,394
Fuel and Light	19,000
"Sundries"	63,000
Total	\$530,625

BY APPOINTMENT

Silence That Is Not Golden

THE merchant who fails to "speak up" lets a lot of golden sales slip past his store. This lost business goes either to his competitor down street or, by the mail order route, to the big city stores.

People are often surprised to find that the goods they bought "unsight unseen" from a catalogue can be seen and examined in the local store!

Tell your buying public what you have, ADVERTISING in "The Enterprise" will invite the whole community to your store. And—

Most Folks Shop Where They Are Invited To Shop

Issued by Canadian Weekly Newspapers Association
Head Office: Toronto, Canada

Here and There

Tourist business throughout Canada has been remarkably productive this year and it is estimated that its total value for the Dominion will exceed \$100,000,000. This places the tourist traffic high among Canada's industries.

The "Princess Kathleen", one of the two fine steamers under construction for the Canadian Pacific Railway's British Columbia coastal service, was launched at Glasgow, Scotland, on September 27th. Lady Mount Stephen, widow of Lord Mount Stephen, former president of the company, performed the launching ceremony.

As an indication of how plentiful wild game has become of recent years in the Province of Quebec comes a report from Montreal, which records the recent appearance of a full-grown bull moose in Rosemont, a suburb of the city. It is thought to have strayed into the neighborhood from the forest to the north. The animal was quite tame and was easily captured.

The Duke of Alba, who, with other Spanish grandees, recently completed an extensive tour of Canada, purchased a number of very valuable furs for gifts to be presented to his friends, including the King and Queen of Spain. The furs were acquired while the Duke was sojourning at Banff, the popular mountain resort on the Canadian Pacific main line.

So greatly has the turkey industry grown in Saskatchewan that marketing pools have now been arranged by the Saskatchewan Department of Agriculture and the Saskatchewan Grain Growers' Association for the marketing of both dressed and live turkeys this fall. Inspectors will be furnished for grading and giving killing and dressing demonstrations.

So heavy was the movement of grain from the lakes to the port of Montreal recently that serious congestion was feared. The storage capacity of the port is 10,000,000 bushels and the grain in sight was greatly in excess of this figure. But skillful handling quickly reduced the amount in hand to 7,966,442 bushels, relieving the situation completely. No further possibility of congestion is anticipated.

It is expected that before the season closes, the work of rock-blasting the main line of the Canadian Pacific Railway in the Quebec District between Montreal and Ottawa, Montreal and Toronto and Montreal and Quebec will be completed. The latter section requires only a few miles to be finished, while the other portions of line referred to have already been finished. As a result, the Canadian Pacific will have in these lines a roadbed which is not excelled by any other on this continent.

To See What Other Half Is Doing.

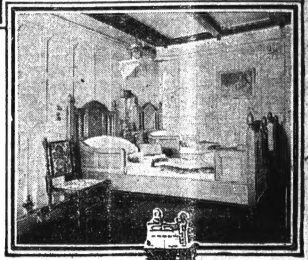

Above—The Canadian Pacific S.S. Empress of France chosen to carry the Canadian flag round the world in 1923.
Right—The bedroom of one of the suites aboard the vessel.

One reads almost daily that so many automobiles have been shipped to foreign countries, that Canadian agricultural implements and other manufactured articles are finding foreign markets, and now one reads that there is an increasing demand in China and Japan for Canadian wheat and that thousands of bushels of grain are being shipped to Oriental ports. Of vital importance is this news to the Canadian, because the growth of Canadian exports means that new industries are being created, that more employment is guaranteed, that more money is placed in general circulation, and that there are more opportunities for the workman, manufacturer and commercial man, and a larger home market for the farmer.

But it means more than all this. The increasing demand for Canadian, American and European goods, which is apparent, means that the other half of the world—the world itself—is changing. The automobile is gradually replacing the richshaw and the horse carts in the gateway ports of the world, and is working its way inland, not so slowly as it is surely. Fields that once knew only the primitive agricultural implements are being tilled with up-to-date machinery, and on the busy streets where people thronged in picturesque and native garb, the occidental costume does not strike a strange note. Customs are changing even in respect to foodstuffs. Outside the little restaurants one sees "English Speak Here", and knows that inside it will be harder to procure a native dish than a European one. Everywhere there is change. The Turks abolish their caliphs and their harems. The Greeks proclaim a republic, education for women appears in India. The Chinese are erecting modern factories.

Yet the world of romance still exists. Foreign countries still hold an allurements, and always will, but as the occidental civilization spreads, the Oriental atmosphere which, after all, is what the tourist goes to find, disappears before it, and the man of today has opportunity which those who come later will never see. Opportunity to see and come in contact with old customs, costumes, crafts and civilizations which are entering or about to enter a transient stage. Opportunity to experience the picturesque life of the other half of the world and to absorb it with the colorful atmosphere of strange lands; for the traveller may still feast his eyes upon the barbaric splendors of Pekin and experience the thrill of shopping in the tumultuous market place at Cairo. The auto has not yet replaced the mule which treads through the steep and cobbled streets of Madeira.

January 14th next will see the palatial Canadian Pacific S.S. Empress of France leave New York on a globe encircling tour which will extend over 150 days. It will be a cruise which will embrace twenty-seven "Gateway Ports", and give the passengers opportunity of coming into contact with more than half a hundred different races. Madeira, Monaco, Naples, Haifa, Padang, Shanghai, Tokyo, Hilo, Balboa and Havana are but a few of the interesting ports of call, and inland excursions will be made to Jerusalem, Cairo, Agra for the Taj Mahal, Pekin, Nikko and other places. Last year another Canadian vessel, the Empress of Canada, made a similar trip—a very successful one—and the first to be operated under Canadian Pacific auspices throughout. A Mediterranean cruise is also planned this year by the Company, the Empress of Scotland being scheduled to leave New York, February 8th on 62 day voyage, and, in addition, the Montroyal, formerly the Empress of Britain, will make two cruises between New York and the West Indies, one on January 26th and the other on February 21st. So it is seen that there is demand not only for Canadian foods, but for Canadian vessels, these last having won for themselves an enviable reputation on both the Atlantic and Pacific waters as seaworthy and comfortable ships.

MACLEOD FARMERS BOYCOTT CALGARY

At a meeting of the farmers and wheat growers of Southern Alberta which was attended by G. G. Crote M.P., and W. H. Shield, M.L.A., the following resolution was unanimously passed.

"This meeting is firmly convinced that the standards in use at the Calgary inspector's office are higher than those in use in previous years, and do not conform with the Canada Grain Act. We refuse to ship grain through until this situation is remedied.—Ex.

A NOVELETTE

"Now, boys," said the schoolmaster, "the word novelette means 'a short tale.' You may now write in your copy-books a sentence containing the word."

A few minutes later he picked up Johnny Brown's book, and read aloud: "Yesterday I saw a fox-terrier running down our street with a tin can tied to his novelette."

The deer-hunting season opens on Saturday.

Contracts have been signed for two exhibition games of hockey between the Calgary Tigers, champions of the West, and the Ottawa Senators, at Ottawa on November 24th and 26th. After playing at Ottawa, the Calgary team will go to Montreal and upon the new arena.

FAMOUS SCOT AT C.N.R. OFFICES

FAMILIAR faces appear in this group snapped in front of the Canadian National Railways office, at 75 Union Street, Glasgow, Scotland. In the centre is Sir Harry Lauder, world-famous actor and comedian, who is now district superintendent of the C.N.R. for Scotland.

Robb, vice-president of the Canadian National Railways, while behind Sir Harry is A. McEwen, well known in Western Canada and now district superintendent of the C.N.R. for Scotland.

METHUSALEH WAS ONLY 80

BERKELEY, Cal., Oct. 22.—Methusalem was not 900 years of age when he died, as set forth in Genesis, but only 80 years old, according to a statement today by Professor Russell T. Crawford, astronomer at the University of California.
"The ancients computed their time by cycles, which we have taken to mean years," Professor Crawford said. "This is wrong, for the ancients did not mean a yearly cycle, but a cycle of the moon, of which there may have been 900 in Methusalem's life. There are that number of moon cycles in 80 years."

WHERE A KISS IS A CRIME

Soviet Russia has forbidden kissing on the ground that it is unhygienic. Neither lips, cheek nor hand may receive the osculatory salute.
Handshaking is also under ban. Smoking is soon to be forbidden. But murder is still a popular governmental amusement. Georgians may not be kissed, but they may be "ex-cuted" by the thousands.
Great is "reform" in Russia.—Nelson News.

People hugged long ago, but they called it romance instead of prize fighting.

WHEN FLOWERS GO TO SLEEP

Some scientists claim that a tree has a heart, and grow others affirm that plants and flowers really sleep. Some during the daytime, some at night. When a flower sleeps it closes its petals; when a plant sleeps the leaves droop and lie close together for warmth. Flowers that sleep by day are wide awake during the hours from dusk to early dawn, when the moths sip their honey, and in return carry pollen from one blossom to another. Some flowers, although they sleep during the night, seem to doze when a storm threatens during the day. If they did not close their petals and slip off into a light sleep when a shower came the honey would be washed away, the pollen would be rendered useless, and the velvety petals, which attract the bee, would be drenched and dragged. Leaves of evergreens do not droop when they sleep, because they have a tougher skin, and in many cases a shiny one, and do not require extra warmth when asleep. There are some flowers—the crocus, for instance—that sleep not only at night but all winter under the ground, in the form of a bulb. All early spring flowers, too, are especially hardy, so as to withstand the cold winds, and most of them are protected by a tough sheath round the bud, which only bursts when the sun is strong enough to kiss it into life.

Peter Smith, former treasurer of Ontario in the Drury Government, and Aemilius Jarvis, senator, were found guilty of conspiracy to defraud the province. Smith was sentenced to serve three years in the penitentiary and Jarvis six months. In addition, each must remain in prison until a fine of \$600,000 is paid. An appeal is being entered by the pair.

BALAD OF FIVE

LITTLE MERCHANTS

Five little dealers,
Each kept a store;
One cut prices—
Then there were four.
Four little dealers,
Feeling sad, but free;
One wouldn't advertise—
Then there were three.
Three little dealers,
One felt very blue;
Failed to dress his windows—
That left but two.
Two little dealers,
All their rivals gone!
One forgot his overhead—
That left but one.
One little dealer,
Decided he could get
Some lessons from experience—
So he is growing yet.
—Winnipeg Free Press.

SATISFACTION GUARANTEED

"Are you sure," asked the old woman, "that this Century Plant will bloom in a hundred years?"
"Positive, ma'am," answered the florist. "If it doesn't, bring it right back."

CLOSE OUT GERMAN

INTEREST IN MINE

An order made by Mr. Justice Middleton at Osgoode Hall, Toronto, directs the winding up of the Rocky Mountain Collieries on the petition of the Branzau Collieries Limited, creditors to the extent of \$289,849.

The Rocky Mountain Collieries were incorporated in 1909 with a capital of one million dollars; to take over certain coal areas owned by the German Development Company.

The proceedings will not likely affect operations in the Branzau field, and the present legal action simply means the closing out of the German interests.

Local and General Items

Mrs. T. Hills and son are in town from Calgary, renewing old acquaintances.

A ladies' auxiliary of the B.P.O.E. was organized at Trail, B.C., last week.

Six months ago gasoline was selling in Omaha at 23½ cents per gallon. Now the price is 8½ cents.

We understand that Mrs. L. H. Putnam intends leaving Blairmore shortly, to return to her former home in Nova Scotia.

Valentino Rinaldi says he has the only broadcasting and receiving "radio" set that refuses to be bothered with static. His range is also illimitable.

Rev. W. T. Young returned the early part of the week from Clareholm, where on Sunday last he officiated at the morning and evening services in the Methodist church.

Mr. G. G. Coote, federal member of parliament for this constituency, accompanied a delegation from Blairmore to Fernie on Tuesday last to meet Premier King and party.

Another big gas well was tapped last week in Southern Alberta, when the Royallite No. 4 well in the Turner field, south of Calgary, came in with a flow estimated at between nineteen and twenty million feet.

Dr. H. A. McDonald and family left Bellevue last week end for Vancouver, where in future they will reside. Dr. McDonald has been a resident of this district for about ten years and was for a time miners' doctor at Blairmore and Hillcrest and later conducted the Bellevue Pharmacy.

A meeting of citizens was held at the Greenhill hotel on Friday night last in the interests of the Kiwanis Club. The meeting was addressed by Dr. Hackney, of Calgary. No action was taken towards formation of a club, but it was decided to gather data for consideration at a future date.

The third annual general meeting of the shareholders of the Blairmore Arena, Limited, will be held tomorrow evening at the Cosmopolitan hotel, when the financial report for the past year will be read and officers and directors for the ensuing year will be elected.

Canadian-born to the number of 27,486 returned to Canada during the United States during the first half of the present fiscal year. Of this number, 28,144 were Canadian-born citizens, 2,635 were British subjects who had acquired domicile in Canada and later moved to the United States, and 1,713 naturalized Canadian citizens.

Mr. and Mrs. D. May left here Monday morning for Vancouver, where they will in future reside. Mr. and Mrs. May have resided in Blairmore quite a number of years, prior to which they were residents of Hillcrest. Their many friends wish them health and happiness in their new sphere.

Harry Thomas, prisoner serving a seventy-five year sentence for 273 burglaries, four safe blowings, one murder, and twenty other assorted crimes, all confessed, is reported by the New York "Evening Post" to be so filled with remorse that he has asked to have his sentence increased another twenty years, and be locked up in solitary confinement "because his punishment is not adequate."

T. M. McCallum, grand patriarch of the Grand Encampment of Alberta, paid an official visit to Crown's Nest Encampment No. 3 on Thursday night of last week. Quite a number of camp members from Bellevue and Coleman, were present. Following the meeting, a social evening was held, in which Babcock and Odellfords and their friends took part.

Born, on Friday morning, October 24th, to Mr. and Mrs. R. Harper, a son.

Mrs. Wilson, of Edmonton, Worthy Grand Matron of the O.E.S., will visit Vimy Chapter in the local lodge hall tonight.

The annual meeting of the Alberta Amateur Hockey Association will be held at Calgary on Saturday, November the 1st.

Messrs. Gillis & Mackenzie have opened up a law office in Bellevue, in the premises formerly occupied by the Canada Cafe and G.W.V.A.

A slight error occurred in a bill issued in connection with the forthcoming teachers' dance. Price should be \$1.50 a couple, instead of per cent.

Miss Verna Felton (Mrs. Miller), well known actress who has appeared on several occasions in Pass theatres, was robbed of \$2000 worth of jewels at Vancouver on the night of October the 21st.

Chong Sam Bow, a Vancouver Chinaman, has been given a second trial for the murder of John Clayton Jones on July 18, 1923, and has been sentenced to hang, the second time, this time on January 15th.

Two flags were flying in Blairmore on Wednesday, one over an Italian citizen's residence at half-mast out of respect for the late Mr. Putnam. The other held a top-mast position over the court house, practically next door.

The Washington Newspaper, published by the University of Washington, Seattle, makes the following announcement in its October issue: "W. J. Bartlett, editor of The Blairmore Enterprise, was married early in September." Action for damages will likely be instigated.

The Blairmore Enterprise has the best selection of Christmas and personal greeting cards ever brought to this district, and they are popularly priced for those who heretofore have felt that such cards were too expensive. Call in and see this line and leave your order, so as to ensure your requirements to send to friends near and far. We can furnish you a better card, printed in our own office with greeting of your own choice, at less cost than any medium-priced stock card on the market.

Mr. M. L. McKinnon, formerly of Lethbridge, has purchased the blacksmithing interests of Mr. S. L. Tuslan here, and is having the shop considerably remodelled and renovated.

Special trains will shortly leave Alberta and British Columbia for Ontario, loaded with competent bootleggers and blindpiggers who will take advantage of the splendid opportunity offered them.

George Hyt, proprietor of the Commercial Cafe and owner of the Majestic Theatre and other properties in Lethbridge, met sudden death when an auto he was driving turned turtle on a hill near Cranbrook on Thursday last. Other occupants of the car escaped with but slight injuries.

During the recent campaign in Ontario, the drys carried advertising matter with the heading "Every Government-Sale Province is a Bootleggers' Paradise"—the biggest infamy lie ever invented. Bootleggers and blindpiggers are about the only people in Alberta today whose business is really at a standstill.

Capt. W. A. Beebe, who was this week elected to the school board by acclamation, has the distinction of having served in that capacity for twenty years, being Blairmore's first school trustee, secretary for upwards of ten years in the pioneer days, the first to employ a teacher and the first to sign a cheque for a Blairmore teacher's salary.

Most of the mines in this district are now working smoothly and very few men are idle.

Fords pay nineteen million in income taxes, while Rockefeller contributes over seven million.

Sir Edmund Osler, president of the Dominion Bank, and a prominent Toronto financial man, who died a few weeks ago, left an estate of four million dollars.

"Hit may be and fo' a rich man to enter the kingdom of hebbens," said Rastus to the preacher, "but hita just as and fo' a po' man to stay on de earth."
